

AUSTRALIA AND NEW ZEALAND SPINAL CORD SOCIETY

**Re: ANZSCoS CONFERENCE 2009
Perth Convention & Exhibition Centre
Wednesday 25 – Friday 27 November 2009**

The Australian New Zealand Spinal Cord Society (ANZCoS) is an affiliated member of the International Spinal Cord Society (ISCoS). Once a year ANZCoS meets in one of the Australian or New Zealand capital cities to present and discuss the care of the spinal cord injured person and to learn about current research trends in this area. This year the Sir George Bedbrook Spinal Unit in Perth, Western Australia is proud to host this event. We expect over 200 delegates from Spinal Units in Australia and New Zealand to attend this conference.

You have been a supporter of ANZSCoS in the past and we thank you for your participation in our activities. This year, we seek your support for this meeting.

Provisional Program of Events

Wednesday 25th November

1.00pm – 3.30pm	Workshops
